## **Volume Products take top honours in Power of Aluminium Awards 2008**

Volume Products, the market leader in self contained workspace, has taken top honours in the Consumer Engineered Products category at the Power of Aluminium Awards 2008.

**Consumer Engineered Products winner Volume Products pictured with Wayne Hemingway MBE**

Developed to showcase aluminium as the metal of the future, and recognise and reward some of the most innovative and exciting examples of how it has been used worldwide, the Awards were presented at a ceremony held at Warwick University on 17 April 2008.

Volume Products scooped the Winner's trophy and £8,000 prize for 'Airea' its portable and self-contained workspac solution. Judges recognised the firm's forward thinking design which offers a practical solution to workspace planning and shows consideration to the work environment in older buildings.

Also recognised in the Consumer Engineered Products category was Eskimo Design which took the Highly Commended title and £2,000 for its stylish 'RON' radiator system.

Speaking at the Awards leading designer Wayne Hemingway said: "I'm pleased to be part of the Power of Aluminium Awards – a valuable platform for designers, and engineers alike, to demonstrate their ingenuity in using aluminium in many market sectors."

For the Power of Aluminium, Judy Howson said: "Aluminium is such a modern, attractive and sustainable material and our Award winners have demonstrated how they have gone beyond the brief to create innovative new applications using this versatile metal."

The Awards, which were presented in front of an industry-leading audience, form an integral part of the calendar for the Power of Aluminium – an umbrella organisation formed to champion the use of aluminium worldwide.

Recognising the importance of the Power of Aluminium Awards 2008, sponsors included: Sapa Profiles UK, Hydro Aluminium Extrusion, ALUnna, BOAL Aluminium, the Council for Aluminium in Building, Powdertech Group, Jaguar, Ribble Packaging, Aluminium Stockholders Associations and the Aluminium Federation, Technoform Bautech, the Aluminium Finishing Association and IOM<sup>3</sup>.
